I knew everyone would want to read about LA freeway traffic congestion!
Copy the address below into your browser and read about LA's #1 ranking for having the most congested freeway traffic in the US for 2013.

Actually, our business improvement districts and their efforts to revitalize LA business areas are all a part of the solution to freeway gridlock and air pollution. Revitalized city-centers will keep customers living in-town as opposed to commuting from the suburbs, the thinking goes.
